Explosive materials reports, Citrus Heights, Sacramento County (New)

At 2300 hours, the California State Warning Center was made aware of confirmed explosive materials found inside a residence that was on fire on the 7000 block of Peachtree Avenue. Fire crews noticed the materials inside the house while extinguishing the fire and notified Citrus Height Police Department. Sacramento County Explosive Ordinance Disposal (EOD) confirmed the nature of the chemicals. Based on the unreleased nature of the chemicals, FBI and ATF were called on scene and a criminal investigation has been initiated. Eight residences on Peachtree Ave have been evacuated. No shelters needed as all of the residents were able to make other arrangements. The explosives were detonated early this morning, 8/14, with no issues reported. A suspect was identified and arrested by Citrus Heights Police Department.

SPILL Report 14-4549, Cupertino, Santa Clara County (New/Final)

A fire occurred at the Vallco Shopping Mall in Cupertino, Santa Clara County at 2227 hours resulting in the release of 50 gallons of hydraulic fluid into grease traps and possibly the sanitary sewer system. . Fire was put out with no injuries and has possibility to make the local news. Approximately 20 people evacuated from the mall and theater. Santa Clara Co Fire Dept. reports that structures have sustained minor flame damage and moderate water damage.

SITUATION SUMMARY

City of Needles Severe Weather Incident, San Bernardino County (New)

Situation

On Tuesday, August 12, 2014 at approximately 1630 hours a severe thunderstorm settled over the City of Needles causing flooding and wind damage. The City of Needles reported a minimum of 50 downed power lines, damage to roofs, and multiple downed trees. A determination has yet to be made if this incident may be linked to the August Severe Weather Incident.

- The City is currently conducting Initial Damage Estimates.
- The City did not activate for this incident and they County does not plan to activate.

Shelters

- A shelter was established at the Needles Senior Center, 1699 Bailey Avenue; however, there were no overnight occupants and the shelter has since closed.

Utilities

- There were substantial power outages due to the storm. The electric line crew was able to get 98% of the system back up during the night though switching but in so doing the City's power redundancy has been severely compromised. Should there be another storm tonight there would be substantial and long lasting power outages in the City. The City has depleted the inventory stock and are reordering but are behind the curve. There more than 50 power poles that are down. Those will be addressed after the system is 100% back on line.

Road Closures

County Road Closures

- Pahaska Trail from Rio Vista Drive to North to Lakota Court in the area of Big River, no anticipated time for reopening.
- Five Mile Station Road from I-40 west to Highway 95 in the area of Needles, no anticipated time for reopening.

State Highway Closures

Per CalTrans, recent severe weather has caused flooding and some road damage resulting in full closure to the following state highways:

- SR 62 is closed from 2.4mi east of Twentynine Palms at Godwin Rd to the Jct of US 95 for an unknown duration.
- SR 177 is closed from Jct of I-10 to the Jct of SR 62 for an unknown duration.

SITUATION SUMMARY

City of Needles Severe Weather Incident, San Bernardino County Cont. (New)

Proclamation

The City of Needles plans to submit a proclamation. The expectation is to have a sign copy to Cal OES by Friday, 08/15.

The Cal OES Southern, Law, and Fire Duty Officers continue to monitor the situation and coordinate information.

Palo Verde Severe Weather Incident , Imperial County (New/Final)

On 08/12/14, Palo Verde, a small unincorporated community of 171 in northeast Imperial County, sustained a wide spread power outage due to storms in the region. Per the Cal OES Southern Region Duty Officer, power was restored to the community at approximately 0900 hours on 08/13. The Region continues to monitor the situation. There are currently no requests for assistance or unmet needs.

Potential Japanese Tsunami Marine Debris (JTMD), Daily City, San Mateo County (New)

A potential Japanese Tsunami Marine Debris (JTMD) was discovered on Mussel Rock Beach, in Daily City, San Mateo County. The boat is on Federal Land in a National Recreation Area. Ports and Harbors facilitated a call with NOAA on 08/13 at 1530 hours. The boat is on the beach, tied to rip rap, and the hull is inundated with sand. Most of the biofouling has been removed from all but the bottom of the boat. Smithsonian personnel from Tiburon Lab collected samples and will return today, 08/14 or Friday. A geiger counter did not pick up anything. The boat is located in an area where there is difficult access and it will probably have to be dismantled in order to be removed. Coastal Region will continue to monitor the situation.

Port of Oakland Protest (No Change)

Oakland Police Department (OPD) is expecting 500-1000 demonstrators on Saturday, August 16, 2014 to protest the ships partly owned by the government of Israel. Although no law mutual aid has been requested, the Port has reached out to Alameda County Sheriffs Office (ACSO) for Law Enforcement support. The distinction is that this is a planned event and therefore not technically mutual aid. OPD is planning on having their Department Operations Center (DOC) open on Saturday. The protest is planned to occur, even if the ships cancel their arrival to the Port. Cal OES Law Enforcement Branch and the Cal OES Ports and Harbors representative continue to monitor the situation and coordinate information.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Weak high pressure will build over the North Coast bringing drier conditions and more seasonal temperatures through the weekend. Coastal locations can expect low clouds each night and morning.

San Francisco Weather:

Temperatures will gradually warm inland with some cooling near the coast. Night and morning marine layer clouds are anticipated near the coast and into coastal valleys. Otherwise dry conditions will persist into early next week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Dry and mild weather expected the rest of this week.

Hanford Weather:

An onshore flow will prevail through Friday with dry weather and near to slightly below normal temperatures. The weekend will trend a bit warmer as high pressure over the four corners region builds into California.

WEATHER

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Temperatures will warm back up to normal by the end of the week and slightly above normal by later in the weekend to early next week as an upper level ridge of high pressure builds. Night through morning low clouds and fog can be expected for the coast and some of the valleys as well through early next week.

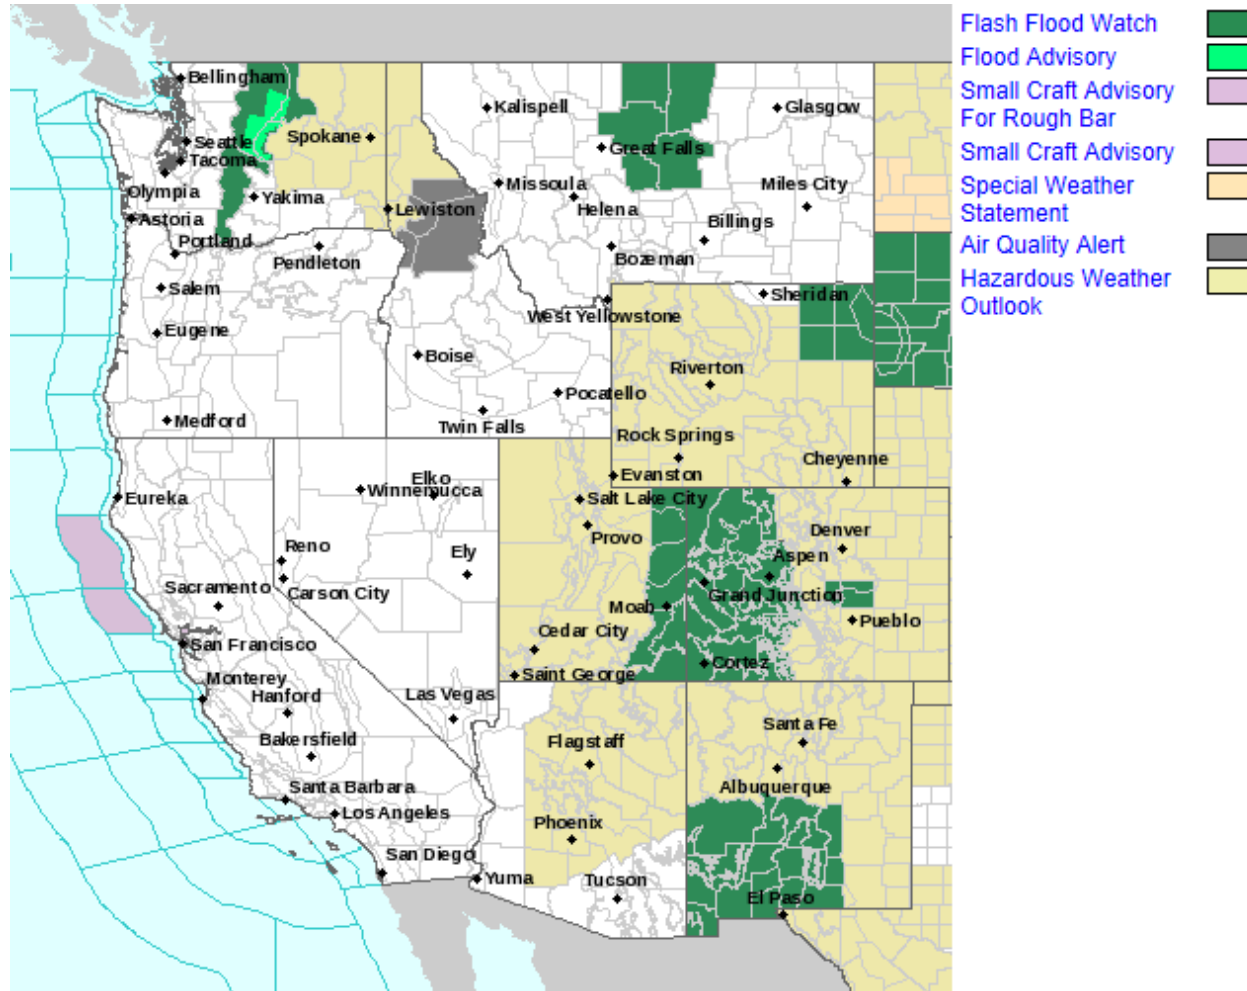

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure aloft will build over the southwestern California the rest of this week and bring a warming trend along with dry weather. Onshore flow will continue the night and morning low clouds and patchy fog near the coast. High pressure aloft will continue seasonally warm to hot weather during the early to middle parts of next week.

Southeast California Weather:

Monsoon moisture will decline over southeast California today and Friday. A drier and warmer pattern will ensue through the weekend and into early next week as high pressure rebuilds.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 11th : Don Pedro 43%; Exchequer 19%; Folsom Lake 40%; Lake Oroville 34%; Millerton Lake 49%; New Melones 25%; Pine Flat 12%; San Luis 20%; Lake Shasta 33%; Trinity Lake 33%; Pyramid Lake 93%; and Castaic Lake 46%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)

Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water¹ to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.

http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/emergency_regulations_waterconservation.shtml

- The 2014 Governor Drought Task Force continues to meet regularly to take actions that conserve water and coordinate state response to the drought.

- Cal OES continues to gather drought-related costs from state agencies and local governments.

New Cal OES Missions

- **2014-LAW-4883**, On 08/14/14 at 0624 hours, the International Emergency Response Coordination Center (IERCC) advised of a Delorme SPOT activation at 37.16619 -118.691977, which plots to the 11,000 foot elevation of Kings Canyon National Park, near Evolution lake. The activation was for another hiker, a 59 year old male who was suffering extreme dizziness, believed to be caused by altitude sickness. He is unable to hike to a lower elevation. Kings Canyon dispatch advised.
- **2014-LAW-4877**, On 08/14/2014 at 0400 hours, Napa County Sheriff is requesting ground search personnel and ATVs from Solano County to assist in the search for a 55 year old male missing from a Veterans home in Yountville. The victim has been missing since 8/13/2014 at about 1330. He is insulin dependent and has missed several insulin injections. Napa County has already made arrangements with Solano County for the requested resources. **Update:** 08/14/2014 at 0700, Napa requesting an additional 30 ground search personnel for an operational period to begin at noon on 8/14. Marin County and Contra Costa County agreed to provide resources.

Closed Cal OES Missions

- **2014-LAW-4859**, On 8/13/140 at 1632 hours. the IERCC reported a Delorme SPOT activation at 36° 36' 9N 118° 42' 7", which plots to Tulare County, inside Sequoia National Park, near Lodgepole. The location is about 8,600 feet elevation. The registered owner is a 54 year old female on a multi day hike by herself. She left her home in Carlsbad, drove to the trailhead and immediately started the hike. She used the device's text message capability to report that she had fallen but was not injured. She said she was exhausted and believed she was experiencing altitude sickness. She texted that she was not able to continue and needed help. LDO notified Sequoia National Park dispatch who dispatched rangers to the area. The rangers were able to locate the victim and escort her out of the area. She was uninjured but suffering from attitude sickness. Mission Closed.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
